## Help Guide for Download Content

Babtanian Designs

Thank you for visiting Maiden Chicago.Com and supporting the band! This user guide will help you utilize the various media available in the download section of Maiden Chicago.Com. This help guide is categorized into the different types of content available for download, listed below.

## MAIDEN CHICAGO COMPUTER DESKTOP IMAGES

Desktop images are graphic files that you can use as the main picture on your computer screen. There are (3) available computer desktop images found in the download section. They are as follows:

- **Maiden Chicago.Com Desktop** / A desktop image featuring the main website header design.
- **Maiden Chicago Gangster Eddie Desktop** / The classic “Chicago Eddie” design with the Maiden Chicago logo.
- **Maiden Chicago Night Skyline Desktop** / The Chicago night skyline inside the Maiden Chicago logo.

All versions of the desktop images listed above are available in (5) different screen resolutions or “sizes”. The available sizes are **800 x 600**, **1024 x 819**, **1280 x 1024**, **1440 x 900** and **1680 x 1050**. It is best to match the size to the screen resolution of your monitor for the best picture quality. To find out what screen resolution you are using on your computer, go to: *Start Menu > Control Panel > Hardware & Sound > Display*. Once you have the “*Display*” window open, click on “*Adjust Resolution*”, located on the far left side of the window. The current screen resolution you are using will be listed under the label “*Resolution*”. Another way you can check your screen resolution is to right-click anywhere on your desktop not on a program icon and select “*Screen Resolution*” from the menu. Doing this will bring you directly to the “*Screen Resolution*” window mentioned above.

### Download Instructions:

Simply click on the desktop image you want and the full image will open in a new window for you to preview. To set the image as your desktop picture immediately, “*Right-Click*” on it and select “*Set As Background*” from the menu. To save the image for later use, “*Right-Click*” on it and select “*Save Picture / Image As*” from the menu. A pop-up window will then open showing the various folders and files stored on your computer. Navigate to the place where you want to save the file and click “*Save*”. It is important to save the file in a location that you remember and are familiar with, so that you can find it when you’re ready to use it as your desktop image.

### Setting the Image as Your Desktop Picture:

On a computer running Windows Vista or Windows 7, to go to: “*Start Menu > Control Panel > Appearance & Personalization*”. Near the top of the window, you will see a heading called “*Personalization*”. Underneath this heading, you will also see a selection of choices; Select “*Change Desktop Background*”. Near the top of the window that opens, click on the button labeled, “*Browse*”. You will then be prompted to browse for the folder where you saved the Maiden Chicago desktop image file. Navigate to the folder you saved the image in, click on it and select “*OK*”. The window will then display all images in that folder; find the Maiden Chicago desktop image and click on it. Your

### Setting the Image as Your Mobile Home Screen:

If you downloaded and saved the image directly to your mobile device, you should be able to set it as your home screen in two ways. First method; go to “*Tools*” or “*Settings*” and locate the setting labeled “*Set Home Screen Image*” or “*Set Desktop Image*”. Locate the saved Maiden Chicago image and select it. Second method; navigate to the folder on your device or inserted SD card where you saved the Maiden Chicago image and open the image. Open the options menu on your device and select “*Set as Home Screen Image*” or “*Set as Desktop Image*”. If you downloaded the Maiden Chicago image from your computer, you will need to transfer it to your mobile device. Connect your mobile device to your computer using the USB connector provided with the device. On a computer running Windows Vista or Windows 7, go to: “*Start Menu > My Computer*”. Your mobile device will be indicated in the list either specifically named or as a “*Removable Disc*”. Double click on your device and find the folder labeled “*Pictures*” or “*Media*”. Open a new window and navigate to the place where you saved the Maiden Chicago image on your computer. Click on the image and drag it over to the other open window for your mobile device described in the first step. Once the image has been successfully transferred to your mobile device, follow the instructions at the beginning of this paragraph to set it as your home screen.

### Using Downloaded Images for Other Mobile Devices:

There are hundreds of mobile devices, and it would be impossible to offer image downloads specific to them all. However, many of the image downloads available at Maiden Chicago.Com can easily be used on these devices. In general, mobile devices have either a horizontal or vertical screen configuration. All of the images at Maiden Chicago.Com have a horizontal configuration with the exception of the iPhone images. Any of these can be utilized on most mobile devices with long horizontal or widescreen type viewing screens. For older cell phones or mobile devices with vertically oriented viewing screens, the iPhone image downloads are the best bet.

## MAIDEN CHICAGO HIGH RESOLUTION PNG LOGOS

PNG files are solid graphics placed upon transparent backgrounds. This allows people who use graphic software such as Photoshop or Corel to use the logos in graphic art creations of their own. The logos can simply be dragged into any project without any annoying background to remove or clean up. There are (12) PNG files in the download section, each created in high resolution (300 dpi). This resolution is adequate for high quality printing and can also be reduced in size without distortion for web applications.

### Download Instructions:

Simply click on the PNG image you want in the download section. This will open a new window in your browser for you to preview the image. To save the image, “*Right-Click*” on the image and select “*Save Target As*” from the menu. A pop-up window will then open showing the various folders and files stored on your computer. Navigate to the place where you want to save the file and click “*Save*”. The image is now ready for you to use in your own personalized graphic projects.

## IRON MAIDEN BUDDY ICONS

There are (7) Iron Maiden Buddy Icons available in the download section. These image files are designed to be used as your small profile picture in various instant messaging programs, or possibly as an avatar on your favorite discussion board.
